Ms. Wendt

WHAT WE WILL LEARN

This course is aimed at introducing principles and concepts that apply to life at all levels of organization, no matter how simple or complex they may be. Our study begins by examining those general characteristics that are shared by all living things. These include similarities in chemical makeup, energy usage, and ability to growth and develop, to name a few.

LATE & MAKE-UP WORK

The instructor reserves the right to deal with specific late work and make-up work issues on a case by case basis. The general rules that will apply are as follows:

- If you are absent, it is YOUR responsibility to check with me for the work you missed and ask questions or arrange a time to make up any lab work. I stay after school almost daily and come early to help.
- You have the same number of days you missed to make up the work
- After that number of days have passed, you will receive a zero in the grade book if you haven't made up work.

Cell Phone Policy

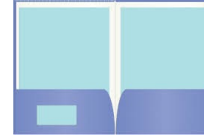

You have a choice each day to earn a point for having your phone out on your table screen side down. If you do not own a device please speak with me. Points factor into your grade under participation. Should you use your phone without permission it will be placed in a brown bag, stapled shut and left in front of you. Continued unauthorized phone use beyond the "paper bag" measure will result in your phone going to the office. Phones not visible lose a participation point for that day.

Language Policy

Swearing will not be tolerated in a professional learning environment. Students will be expected to serve a 5 min. detention with me for every swear committed (20 min. for the F word) Students may choose to pay .25 cents for swearing instead of serving a detention. (The F word will result in a 20 min. after school detention or a \$1.00 charge.) That money will go to the charity/fundraiser of the month as posted in class.

REQUIRED MATERIALS

1 Folder for organizing your notes

SMARTPHONE APPS

If you have a smartphone please download these free apps—Skyward & Remind, We will use them all in class.

How to stay connected

The best way to stay connected is by visiting our website. If you need help, feel free message me on Remind. I am also available during Broncos.

I also use our website www.wendtiand.weebly.com
GO TO Biology

POLICIES

No phones during lecture
No cheating
BE on task
RESPECT everyone
